We are interested in knowing your thoughts on our Bioinformatics course. Even if you didn’t come to every lecture, your input is valuable to us. Please complete this form and leave it at the front of the auditorium or send it to Janelle Herren (IP Office, Nine Cambridge Center, Cambridge, 02142). Please submit your evaluation form by Friday November 7th, 2003. Thank you for your input.

Office location: □ 9CC □ OKS □ 320 Charles □ 5CC □ Industry__________

(check one)

1. Was this course useful for your research?    YES □   NO □

2. Did you read the assigned reading material?   YES □   NO □

3. Did you find the available computers useful?   YES □   NO □

4. Did you learn new methods to use in your research?  YES □   NO □

5. Did the course meet your expectations?    YES □   NO □

6. Was the pace of the course good for you?   YES □   NO □

7. Did the research talk add substantially to the course?  YES □   NO □

8. Would you recommend this course to others?   YES □   NO □

9. How would you rate the content of the lectures on the following topics (circle one)?

   Sequence Analysis
   1. Excellent □ 2. Good □ 3. Fair □ 4. Poor □
   Why? ______________________________________________________________

   Computational Methods
   1. Excellent □ 2. Good □ 3. Fair □ 4. Poor □
   Why? ______________________________________________________________

   Protein Analysis
   1. Excellent □ 2. Good □ 3. Fair □ 4. Poor □
   Why? ______________________________________________________________

   Microarrays
   1. Excellent □ 2. Good □ 3. Fair □ 4. Poor □
   Why? ______________________________________________________________

10. How did you hear about this course? ________________________________

11. Please list topics you would have liked to learn more about.
